## PROFESSIONAL SUMMARY

Full-Stack Developer with 3+ years of experience building scalable, high-performance web applications using **React, Next.js, Node.js, and Express.js**. Strong background in UI/UX, RESTful API development, authentication (JWT), and database design using **MySQL and MongoDB**. Experienced in building real-world systems such as **e-commerce platforms, dashboards, and management systems**, with a strong focus on clean architecture, performance, and maintainability.

## TECHNICAL SKILLS

### Front-End

- HTML5, CSS3 (Flexbox, Grid)
- JavaScript (ES6+), TypeScript
- React.js (Hooks, Context API, Redux, Zustand)
- Next.js (SSR, SSG, ISR)
- Tailwind CSS, Material UI
- Responsive & Accessible Design

### Back-End

- Node.js, Express.js
- RESTful API Design
- Authentication & Authorization (JWT, Cookies)
- MVC Architecture
- File Uploads (Multer, Cloudinary)

## Databases

- MySQL (Schema Design, Relations, Joins)
- MongoDB (Mongoose, Schema Modeling)
- CRUD Operations & Data Validation

## Dev Tools & Others

- Git & GitHub
- Postman
- CI/CD Basics
- Performance Optimization
- Security Best Practices

## WORK EXPERIENCE

### Freelance Full-Stack Developer (2022 – Present)

- Developed full-stack web applications using **React, Node.js, and Express.js**.
- Designed and implemented RESTful APIs consumed by modern front-end applications.
- Built authentication systems using **JWT and role-based access control**.
- Integrated **MySQL and MongoDB** for structured and unstructured data.
- Improved application performance by up to **30%** through optimization techniques.
- Delivered fully responsive dashboards and admin panels.
- Worked directly with clients to translate business requirements into technical solutions

## FEATURED PROJECTS

## Pharmacy Management System

- Tech: React, Node.js, Express, MySQL, JWT, Cloudinary
- Full pharmacy system with **products, orders, sales, returns, suppliers, and users.**
- Role-based system (Admin, Pharmacist, Delivery).
- Secure authentication using JWT and cookies.
- Image handling with Cloudinary.
- Real-time stock management and order tracking

## Ramadan Worship Website

- Tech: React, Tailwind CSS, Context API, Online Quran API, Local Storage
- A platform to track daily worship activities during Ramadan (prayers, Quran, charity).
- [Live Demo](#) | [GitHub](#)

## Habit Tracker Website

- Tech: React, Zustand, Tailwind CSS
- A platform for habit tracking with progress analytics.
- [Live Demo](#) | [GitHub](#)

## Skill Explorer

- Tech: React, Tailwind CSS, Redux, Redux Persist
- A platform that helps users discover their strengths and recommends real courses to grow skills and career potential.
- [Live Demo](#) | [GitHub](#)

## Edu Connect

- Tech: React, Tailwind CSS, Redux, Context API
- An educational platform connecting students with teachers and courses for effective digital learning.
- [Live Demo](#) | [GitHub](#)

## Products Selling

- Tech: Next.js, Tailwind CSS, TypeScript, Context API, Online API
- An e-commerce platform that displays products and their details, allowing users to search, filter, and sort products.
- [Live Demo](#) | [GitHub](#)

## EDUCATION

- Bachelor's in Information Technology
- Egyptian E-Learning University (EELU) | Graduation: 2024

## LANGUAGES

- Arabic (Native) | English (B2)

## What I'm Currently Working On

- Advanced Node.js architecture
- Database optimization
- Building scalable APIs
- Improving system security
